STAT

FROM:

[REDACTED]
Senior Requirements Officer
Liaison and Requirements Branch, E&PS

SUBJECT: AIGs/Lateral Services

1. Although LRB has regarded AIGs as strictly a bureau responsibility in the past, recent problems with them have forced us to take a closer look at their composition. After trying to break the individual AIGs down into their component lateral service parts, it became apparent that not all the AIGs were composed exactly of a neat package of specific lateral services. The passage of time and events has undoubtedly played a role in the formal lateral service packages and AIGs going their somewhat separate ways.

2. Since it is LRB's responsibility to ensure that our lateral consumers are receiving what they need, we would like to bring the AIGs and individual services back together as much as possible. As a first step, we would like you to go over the attached list and help us determine why some consumers, who do not appear to want or need this material, are included in an AIG while others, who seem to be logical recipients, have been excluded.

3. We realize this exercise will probably fall somewhat short of all our goals, since records or institutional memory will probably not be complete. However, we appreciate your efforts and look forward to your comments.
